

Viktor Kobzar is a Project Manager at SoftServe Inc. During the last five years, he has supervised software development teams of 10 to 50 members and lead digital transformation projects for enterprise clients. Prior to being the information technology field, Viktor gained knowledge and management experience in the construction industry. After seven years of leading construction projects, his native town of Dnipro, Ukraine obtained more than ten industrial and civil buildings. When he is not thinking about project deliverables, he spends time traveling with his wife and son, reading books, and, as a passionate driver with motorsports experience, trying very hard to obey speed limits. After moving to the United States in 2016, Viktor become an enthusiastic football fan. He currently resides in Concord, NH and works with Northeast Delta Dental in implementing its Agile transformation.
